

YOU'VE HELPED US FIGHT HIV NOW LET'S END IT

🦋 End the growth of the epidemic

We have the tools we need, now we must ensure the political will and investment to stop HIV in its tracks.

🦋 End ignorance about HIV

We know how and what to teach people, now we need to ensure that every child in every school learns what they need to protect themselves.

🦋 End stigma and discrimination

The laws are in place but now we must implement them and ensure we all have access to justice.

🦋 End the link between HIV and poverty

We know having HIV means you are more likely to live in poverty, now we must tackle the causes of poverty.

🦋 End seeing the virus not the person

We need to ensure that support is provided for all people with HIV to live full and happy lives.

🦋 End the disproportionate impact of HIV on some communities

No one should be at increased risk of HIV because of where they are from or who they have sex with.

Let's get this done together before another 30 years passes by.
